

## Patent classifications thesauri in USPATFULL

USPATFULL contains thesauri for the International Patent Classifications in the /IC field and USPTO Classifications in the Current National Classification (/NCL), Issue National Classification (/INCL), and Related Patent Classification (/RPCL) fields.

### Find the definition and narrower classifications of the IPC A23G001-00.

1 In EXPAND, enter the IPC followed by +TI (for the title) and NT (for narrower terms), followed by International Patent Classifications field code (/IC).

The IPC is displayed as an E-number (E5) with the title in context of broader terms (BT) followed by the narrower terms (NT).

2 Search the IPC and the narrower terms by entering the E-number from the EXPAND (E5) followed by +NT and the field code (/IC).
