

STN[®] Access Guide

This document provides information on accessing the STN family of solutions, including:

- Classic STN
 - STNext[™]
 - STN Express[®]
 - STN[®] on the WebSM
 - STN Easy[®]
 - STN[®] AnaVist[™]
- New STN

June 2017

Overview

Access to all STN solutions requires an STN account and Login ID. Please use the following forms to set up an STN account and request STN Login IDs.

- [STN Multiple Login ID Request Form](#) (PDF)
- [STN Shared Login ID Request Form](#) (PDF)

See [STN Terms and Conditions](#) for more information.

Standard STN Login IDs and passwords are automatically activated to access all classic STN interfaces and STN AnaVist. New STN is available exclusively to customers with fixed fee agreements, including STN Global Value Pricing, STN Search Services Value Pricing, STN Fixed Fee and Clarivate Analytics on STN Open Access License.

All STN academic accounts have access to classic and new STN interfaces at the same times and under the same terms and restrictions that apply for traditional access to STN.

Accessing STN

STN offers a variety of interfaces and tools to meet your needs and environment.

STNext™

As a secure, browser-based solution requiring no software installation, STNext is the preferred classic STN interface. To access STNext, visit next.stn.org.

To access STN on the Web, visit stnweb.cas.org.

New STN

To access new STN, visit www.stn.org.

STN Express

STN Express and STN AnaVist require the installation of client software or plug-ins. This software is free to all STN users. Visit [STN Software License and Download](#) to download software for STN Express or STN AnaVist and to review the STN Express and STN AnaVist License Agreements. **Note:** The download option is available for STN-Columbus and STN-Tokyo Service Center customers only and is not available for STN accounts opened over the Internet through STN Easy. European customers should contact [STN-Karlsruhe](#).

For CD-ROM installation: Contact [CAS Customer Center](#) or complete the [STN AnaVist Order Form](#).

For additional information about updating STN Express Support Files, see the Help files for STN Express V8.6 or visit [STN Software License and Download](#).

You can access STN AnaVist from STN on the Web by using the **STN AnaVist Assistant**.

There are three URLs worldwide for STN Easy. When your account is established, you are assigned to one of these URLs, usually the one geographically closest to you. You may request a different URL by contacting [CAS Customer Center](#).

STN-Columbus customers can always access STN Easy at stneasy.cas.org.
