## DISPLAY and PRINT Formats

Any combination of display formats may be used to display or print answers. Multiple codes must be separated by spaces or commas, e.g., D L1 1-5 TI AU; D L1 1-5 TI,AU. The fields are displayed in the order requested.

Hit-term highlighting is available in all fields except CT and PY. Highlighting must be on during SEARCH in order to use the HIT, KWIC, and OCC display formats.

(1) No online display fee for this format.

(2) Custom display only.

(3) SCAN must be specified on the command line, i.e., D SCAN or DISPLAY SCAN.

## SELECT, ANALYZE, and SORT Fields

The SELECT command is used to create E-numbers containing terms taken from the specified field in an answer set.

The ANALYZE command is used to create an L-number containing terms taken from the specified field in an answer set.

The SORT command is used to rearrange the search results in either alphabetic or numeric order of the specified field(s).

(1) HIT may be used to restrict terms extracted to terms that match the search expression used to create the answer set, e.g., SEL HIT TI.

(2) Appends /BI to the terms created by SELECT.

(3) SELECT HIT and ANALYZE HIT are not valid with this field.

(4) Selects or analyzes the CODEN and ISSN with /ISN appended to the terms created by SELECT.

(5) Selects or analyzes the full and abbreviated titles with /JT appended to the terms created by SELECT.

(6) Selects or analyzes the CODEN and ISSN with /SO appended to the terms created by SELECT.

ABSTRACT: Nanospheres of poly(epsilon-caprolactone)(poly-epsilon-caprolactone)  
loaded with flurbiprofen were prepared and characterized, and in  
vitro drug release from the nanospheres, in the presence and absence  
of lysozyme(muramidase), was studied using a dialysis bag diffusion  
technique and a dialysis inverse technique. The results showed that  
the release of flurbiprofen from the nanospheres was biphasic,  
characterized by an initial fast-release phase and a second  
extended-release phase. In the presence of lysozyme, the  
release of flurbiprofen was slower but complete. Ramune T. Dailide
