CAS IP SERVICES

BUILD A SOLID BACKUP PLAN FOR SEARCH DISRUPTIONS

CAS Search Guard℠ overcomes gaps to ensure success

R&D and IP professionals sometimes struggle to overcome gaps in staffing and domain expertise. These obstacles can put your success at risk and cause:

- Project delays and inefficiencies
- Inconsistent search quality
- Increased costs and budget overages

Plan ahead to ensure search continuity

IP search teams are often challenged by disruptions and unanticipated needs, such as:

- **Staffing** - when in-house searchers go on leave, take a vacation, or retire
- **Expertise** - when existing staff lacks the needed domain experience or search capabilities to meet emerging business needs
- **Capacity** - when workloads peak and projects need to be completed urgently
- **Validation** - when quality assurance procedures require a search to be reviewed by an independent expert
- **Geography** - when expertise is required in additional regions or time zones

Now you can have a backup plan for these situations. CAS Search Guard gives you access to experts in science, technology, and intellectual property who can help you resolve challenges across your organization. From patent searches to in-depth, strategic consultations, CAS Search Guard provides a wide range of knowledge, resources, and solutions to your business.

Our capabilities

**CAS Search Guard provides:**

- Search expertise
- Supplemental capacity
- Asset monitoring
- Data customization
- Analysis and visualization
- Competitive/strategic analysis
